
TABLE OF CONTENTS

Volume 2 – Storm Water Drainage Criteria and Design Manual

Chapter 1 - OVERVIEW OF INTEGRATED SITE DESIGN

- 1.1 Purpose and Scope of the Technical Guidance Manual
- 1.2 Integrated Site Design
- 1.3 Preferred Site Design and WQ_v Reductions
- 1.4 Structural Storm Water Controls

Chapter 2 - WQ_v REDUCTIONS AND PREFERRED SITE DESIGN PRACTICES

- 2.1 Introduction
- 2.2 WQ_v Reductions
- 2.3 Preferred Site Design Practices
- 2.4 Preferred Site Design Examples

Chapter 3 - STORM WATER CONTROLS

- 3.1 Storm Water Management Controls Overview
- 3.2 Primary TSS Treatment Facilities
- 3.3 Secondary TSS Treatment Facilities
- 3.4 Other Storm Water Management Facilities
- 3.5 Maintenance Guidance and Inspection Checklists

Chapter 4 - HYDROLOGIC ANALYSIS

- 4.1 Introduction to Hydrologic Analysis
- 4.2 Rainfall
- 4.3 Rainfall Losses
- 4.4 Time of Concentration
- 4.5 USGS Regression Methods
- 4.6 Rational Formula Method
- 4.7 Hydrograph Methods
- 4.8 NRCS Unit Hydrograph Method
- 4.9 Clark Method
- 4.10 EPA-SWMM “RUNOFF” Method
- 4.11 Routing
- 4.12 Downstream Hydrologic Assessment
- 4.13 Water Quality Protection Volume and Peak Flow
- 4.14 Channel Protection Volume
- 4.15 Backwater Conditions
- 4.16 Water Balance Calculations
- 4.17 Approved Hydrology Models

Chapter 5 - HYDRAULIC DESIGN

- 5.1 Hydraulic Design Overview**
- 5.2 Storm Sewer Systems**
- 5.3 Culverts**
- 5.4 Bridges**
- 5.5 Open Channels**
- 5.6 Outlet Structures**
- 5.7 Energy Dissipation**
- 5.8 Level Spreaders**

Chapter 6 - FLOODPLAIN MANAGEMENT

- 6.1 Introduction**
- 6.2 FEMA/NFIP Regulated Floodplains**
- 6.3 Floodplains for Streams not Regulated by FEMA**
- 6.4 Local (Site-Scale) Potential Floodprone Areas**
- 6.5 FEMA Resources**

APPENDIX A – Manning’s n Table of Values

APPENDIX B – Rainfall Intensity Table for Sedgwick County, Kansas

APPENDIX C – Rational C Table of Values

APPENDIX D – Wind Roses for the City of Wichita

APPENDIX E – Storm Water Controls Screening Matrix

APPENDIX F – Acronym List

APPENDIX G – Reference List
